*** Take Arisa as an example**

1. To download more Animation, please search for "Mixamo" on Google, enter the official website and register for an account
2. After logging into your Mixamo account, click on "Upload Character" on the right, then drag our Arisa.fbx file into it, then please give Mixamo some time to load the model

3. Then select the Animation you want, then press Download

4. Move your downloaded Animation file from the download folder to the Asset folder

5. For example, we just downloaded "Arisa @ Standing Greeting" from Mixamo and dragged this file to the Asset folder. Then we select it in Unity and then go to Rig change to (Humanoid / Copy From Other Avatar). Drag ArisaAvatar to Source and press Apply to finish
